

Euro XV wildland fire shirt

DESIGN AND MATERIALS

- | Fire-proof Wildland Fire Shirt made with inherently fire-proof fabric.
- | It does not have treatments that are lost with washing. It has technical and design features that improve the user's comfort by improving physical performance during the day.
- | This garment is designed to allow full mobility and rapid evaporation of perspiration, achieving low thermal stress by releasing body heat, thus minimizing risk in fire extinction tasks.
- | All their materials are fire-proof, from the fabric to the threads, the reflective tape, the Velcro fastenings, and hidden closing that prevents heat transfer from the outside to the inside of the garment thus avoiding contact burns.

QUALITY

- | Our fire-proof EURO XV shirts and pants have obtained the CE Certificate No. 0161/4644/16 issued by the AITEX Certification Body of Spain.

This certificate obtained by our company guarantees the quality and performance of our Fire-proof EURO XV Wildland Fire Pants and Shirts under the ISO 16073:2011 Standard "Personal Protection Equipment to Combat Wildfires".

Sizes chart Euro XV wildland fire shirt

Option
raised or closed collar

Option
folded or open collar

- Measurement A is the perimeter of the torso by placing the tape right below the armpit with the arms down, and in an upright body position. Take the measurement with a shirt on.
- Measurement B is taken in the same body position as in A, placing the tape from the base of the neck up to the wrist, going over the shoulder and the elbow.
- Sizes not shown in the table are considered special, so they may differ in cost and delivery time.

The chart shows the measures of the body, not the ones of the garment
