

PERSONAL PROTECTION - FIRE RETARDANT CLOTHING

Belt

USES

| Quick-closing and regulating belt for work pants. This belt is made to be used in trousers with NATO-type belt loops.

DESIGN AND MATERIALS

- It is made of a super-heavy 50 mm polypropylene strap and its length is extensible to fit all sizes.
- It has an acetal buckle that guarantees the quality and security of the quick closure.
- It does not have metallic elements to avoid thermal and electric transmission to the user, avoiding burns by contact or exposure to radiant heat.
