

Dual X5 safety goggles

USES

- The Dual Goggles create a seal around the eyes that protects against direct impact and large particles.
- Their dual-function design allows use as goggles or as safety glasses with a secure fit.

DESIGN AND MATERIALS

- High-density polycarbonate lens with nylon frame.
- Adjustable strap and rubber bridge.
- Clear lens: general use.
- Includes an anti-impact bar that helps reduce shock and seal the view from the outside.

QUALITY

- The Dual X5 Safety Goggles have obtained IRAM quality certification.
