

EURO XV fireproof hood

USES

— Inherently flame-resistant protector. Provides effective protection against burns from radiant heat, flames, and incandescent particles.

DESIGN & MATERIALS

- Made of aramid fibers, covering the head and neck with a "hooded" monastic-style design.
- INTERLOCK 180gr/m², 50% meta-aramid – 50% FR Lenzing.
- Soft texture against the skin; does not cause irritation in the presence of sweat.

ACCESSORIES

— Can be used together with a helmet, respiratory protection, and eye protection.
