

WILDFIRE

## *Firebreak II percolating hose*

- | Premium single-jacket fully-synthetic heavy-duty lightweight fire hose. Its patented Hydro-Wick® wetting process produces a wetting effect on the outside of the hose.
- | Its Mertex® lining produces extremely low friction loss for the maximum flow, and superior adhesion for a long service life. It is the hose with the lowest pressure loss in the market.
- | It is resistant to most chemicals, petroleum-based products, ozone, UV exposure, hydrolysis, decomposition and mildew. It keeps its flexibility at -55 °C (-65 °F).
