

WILDFIRE

Inforest nozzle 360

USES

- | It is a 1" nozzle with cut and adjustable flow which has 4 different flow options. It achieves greater effectiveness by preserving the available water and avoiding breakage due to jet impact.
- | It combines from a fog to a full jet with only a quarter turn of the nozzle. It is designed to withstand pressure up to 40 BAR, making it optimal for use in lines and winders.

CONSTRUCTION

- | It is made of anodized aluminum, and it requires minimum maintenance, since the shut-off valve and the rotating teeth are made of stainless steel. All components are corrosion resistant.

INLET

- | 1" (25 mm)
- | Selectable flows: 19-37-90-150 LPM
