

Inforest reel

DESIGN AND CHARACTERISTICS

- | The INFOREST reel's practicality relies on the simplicity of its resolution, incorporating efficient devices, such as the multi-position automatic locking system, that facilitates and speeds up the task for the operator.
- | It is worth mentioning that the compact system can incorporate up to 50 m of winder of up to 1", and the mounting of the shaft on bearings provides a smooth, continuous movement that does not cause physical wear when operating the hand crank (a pneumatic or electric motor can be incorporated on request to facilitate the collection of the hose).

MATERIAL

- | It has a baked polyester paint finish that ensures durability even when exposed to unfavorable weather conditions.

TECHNICAL SPECIFICATIONS

Weight	21Kg
Width	64 cm
Length	53 cm
Height	60 cm
