

# Seat belt cutter

## USES

- | This personal use tool is ideal for users who work in vehicle accidents, as it allows to quickly and easily free the patient from the seat belt without moving him.
- | With a single movement, it safely cuts seat belts, belts, and other stuck fabric without the risk of pricking or hurting the patient.

## CUSTOMIZATION

- | The Belt Cutters, on request and according to modules, can be customized by producing them in a desired color, and with screen-printed text for advertising or promotional use.
