

## *Semirigid hose for reel*

### USES

- | This vulcanized rubber hose with a textile interior is resistant to tearing or cutting due to wear or friction when it is dragged. It withstands breakage and collapse that throttles the hose during fire-fighting operations.
- | These hoses have a low pressure loss coefficient.
- | This type of hose can be used on hot surfaces and can withstand working pressures of up to 20 BAR.
- | This is a 1" hose with pressed female and male connectors and it can be up to 50 meters long.
