

Square hoe

APPLICATIONS

- | It is used for digging, removing soil and creating fire lines.

HANDLE

- | Lightweight and ergonomically designed. It features anti-slip areas for improved grip and reduced vibration transmission to the user.

Technical features:

- It is straight and made of fiberglass reinforced high-density polyethylene resin (HDPE).
- At one end, it features an epoxy-painted shaft to which the shovel is riveted by means of an hexagonal head bolt.

SHOVEL

- | Constructed of Hardox alloy steel with hardness of 45 HRc. It has three sharpened edges at 45°. It features two longitudinal bends at 15° for improved stiffness.

Finish: black micro-textured baked epoxy paint.

Dimensions: 205 mm x 205 mm.

Weight: 1 kg

Weight	2,3 kg
Length	1,2 m
