

## Steel Pro Zex safety goggles

### USES

- Protection goggles that form a protective seal around the eyes. They protect against direct impact or big particles. They have indirect or slotted venting to prevent the passage of liquids or small particles into them. They also protect the eyes against splash.
- They provide protection against impact and UV radiation, and prevent direct contact of smoke on the eyes. Indirect venting, soft and non-toxic cushion, and anti-fog treatment.

### COMFORT

- It has an adjustable elastic strap.

### COLORS

- Colorless:** general use.

### QUALITY

- The ZEX Safety Goggle has obtained the IRAM quality certification in compliance with Resolution SIC&M No. 896/1999; in accordance with the rules 166:2001.
