

WILDFIRE

## Forestguard II hose

Fully synthetic, non-self-wetting, ULC-approved fire hose.

Resistant lightweight versatile wildland fire hose with Mertex® lining that produces extremely low friction pressure loss for the maximum flow, and superior adhesion for a long service life.

### DESING AND MATERIALS

| Premium single-jacket fully-synthetic fire hose resistant to most chemicals, petroleum-based products, ozone, UV exposure, hydrolysis, decomposition, and mildew. It keeps its flexibility at -55 °C (-65 °F).

It is available with Permatek HP™ treatment against abrasion, moisture absorption, and mildew. It meets or exceeds all performance requirements of NFPA 1961, Underwriter's Laboratories of Canada specification S518.1, Factory Mutual and USDA specification 5100-187C type 1 in 1" and 1½".
