

Rigid extinguishing backpack

17-liter rigid-tank extinguisher with a long-range nozzle (8-12 m), anti-fold hose, padded straps, and adjustable belt.

The backpack has a highly-resistant ergonomically-designed tank for forestry tasks and a nozzle that ensures efficiency while combatting fires.

DESIGN

- | Its design includes a specially designed spout to optimize the jet pattern and the spray range.
- | It has a simple assembly system that facilitates cleaning and maintenance, and it features an ergonomic tank with a hermetically-sealed lid and a decompression valve. The assembly also includes a transport hose clamp and padded adjustable straps with waist tie-down.

TECHNICAL SPECIFICATIONS

Capacity	17,5 L
Dimensions	50 x 61 cm
