

EOM Helmet

The most effective helmet model for head protection in forest fire fighting and technical rescue. Its advanced design and the use of the highest quality materials ensure a high level of safety and exceptional comfort.

DESIGN

- The helmet is ergonomic and lightweight, guaranteeing high standards of protection and functionality.
- It offers high resistance to extreme temperatures, impact, and crushing.
- The external components of the helmet, such as the chin straps, are made of fire-retardant materials.

TECHNICAL SPECIFICATIONS

- 4-point retention system that ensures maximum stability of the helmet. It has adjustable straps made of black fireproof fabric, with a rectangular loop, an adjustment buckle, and a snap buckle.
- Quick size adjustment from 52 to 62 using a rear adjustment wheel.
- In the upper part of the helmet, parallel to the top, there are 10 holes (5 on each side), which are the ventilation system. In addition, it has holes and slots on the sides designed for attaching visors, the retention system, and other accessories.

MAIN CHARACTERISTICS

Adjustable size from 52 to 62	
Weight	750gr
