

Mapache extinguishing Backpack

Water backpack with a square design that maintains its shape even during and after filling.

Scan the QR code and find more information about our product.

INCLUDES

- Water backpack
- Double-action stainless steel nozzle
- Quick-connect bronze coupling
- Side pockets for torches or water bottles
- Padded waist belt
- Front pocket
- Reflective trim
- Quick-connect bronze coupling
- Top-loading fill cap
- Capacity: **25 liters maximum**

DESIGN AND MATERIALS

The only flexible fire suppression backpack on the market, with a square design and top-loading system. It allows:

- 1 Being filled by a single person thanks to the top-loading design.
- 2 Maintaining its shape during and after filling.

- Developed to provide comfort during long working shifts, it incorporates functional improvements that optimize ergonomics, equipment organization, and field safety.

- Internal anti-surge system, designed to maintain stability during transport.

- Made of polyamide fabric (Nylon) with PU coating, resistant to wear and abrasion, with flame-retardant properties under NFPA 701 Standard. It features plastic trims with reflective material at main seams for greater visibility.

Not available in Argentina.

POCKETS

- Fully enclosed front pocket with flap and zipper for safe transport of hose and nozzle.
- Wing-style side pockets with internal zippered pocket for batteries or other items.
- Front pocket with MOLLE system for accessories and tools.

NOZZLE TRANSPORT

- MOLLE system on the sides and hip belt that allows adjusting the position of the removable carabiner according to user preference.
- Lateral velcro strap for transporting the double-action nozzle on the side of the backpack.

ADJUSTMENT SYSTEM

- Three adjustable fastening systems:
 - Abdominal belt
 - Chest adjustment
 - Adjustable shoulder straps
- All sliders feature ergonomic pulls. The straps incorporate velcro to secure loose ends and avoid interference during use.

WATER BAG

- High-resistance internal PVC bladder with anti-surge baffles. Easily replaceable without tools. Top-loading opening with filter and handles to facilitate filling.

AVAILABLE COLORS:

DIMENSIONS	Full	Empty
Height	600 mm	600 mm
Width	300 mm	470 mm
Depth	250 mm	180 mm
Weight	34,5 kg	1,5 kg
Capacity	25 liters	

**NFPA 701
Certification
FLAME-RETARDANT
PROPERTY**

- Stainless steel nozzle, low-maintenance, redesigned to reduce weight and improve aesthetics and ergonomics. Features a mobile handle on the main tube for easier grip.
- The tip has also been redesigned, achieving improvements in both full jet and mist spray.
- The materials used in its manufacture are not susceptible to corrosion or limescale buildup.
- The nozzle maintains its double-action system, allowing selection between a full jet with a range of up to **12 meters** and a mist with a range of up to **3 meters**.

- Anti-kink hose featuring internal stainless steel studs, allowing it to be used with foam concentrate and fire retardant.

Not available in Argentina.
