Dimensions	26X16X35 cm
Total weight	2kg
First aid bag weight	170 g
Shelter carrier weight	160 g

The Inforest Day Pack is designed to transport all the elements necessary to work in wildfires. It can be adjusted and re-adjusted according to the user's needs.

The base harness has a unique ergonomic design that ensures a perfect fit, enhancing the user's mobility and reducing fatigue due to load.

STEPS FOR PROPER USE

- 1 Loosen the shoulder straps; position the belt comfortably at the hips, and tighten the straps.

- 2 Pulling the colored strap, open the lid where the rigid back support is housed.

- 3 By pulling the adjustment strap, pull the Velcro® fastening between the back support and the main backpack.

- 4 Slide the back support vertically along the length of the back, until the seam aligns with the shoulders.

- 5 Return the adjustment strap to its original position. The fastening strap can be adjusted so that the weight of the load is transferred to the shoulders and hips.
