

## INFOREST Reel V3

### DESIGN AND FEATURES

- The practicality of the INFOREST reel is based on its simple and functional design. It incorporates efficient devices, such as the multi-position automatic locking system, which facilitates operation and ensures safe and efficient handling during use.
- The compact INFOREST reel system allows for the incorporation of up to 50 m of hose reel for hoses up to 1". Thanks to the axle mounted on bearings, smooth and continuous movement is achieved, minimizing physical strain when operating the manual crank. Additionally, upon request, a pneumatic or electric motor can be incorporated, further facilitating hose retrieval.

### MATERIAL

- The INFOREST reel features a textured baked polyester powder-coated finish, ensuring high durability even under adverse weather conditions, providing resistance to wear and corrosion over time.

### TECHNICAL SPECIFICATIONS:

WEIGHT:	24 Kg.
WIDTH:	65 cm.
LENGTH:	54 cm.
HEIGHT:	58,5 cm.
